Colour in your Little Kitten bookmark

Cut it out, colour it in and glue it together!

BACK

FRONT

1. **Cut out** both pieces along the thick outline. Ask a grown-up to help with the scissors.
2. **Colour in** your kitten with pens or crayons. Any colours you like!
3. **Glue** the front piece onto the back piece, only above the dashed line. Line up the ears.
4. **Slide** the page between the paws and the back. Little Kitten keeps your place!

Tip: print on thicker paper or card (160–200 g/m²) so it lasts longer.
